

PRODUCT CATALOGUE

PREMIUM & AFFORDABLE
CHOCOLATE-BASED CONFECTIONERY

A truly indulgent chocolate experience.

'ChocoZay' is a family-owned chocolate manufacturing business started with the intent to spread happiness with quality products made from superior ingredients.

The plant is designed with world-class machinery wherein we produce chocolate from scratch and then mould it into truffles and bars. These products are then packed using prime packing machines. We adhere to world-class food manufacturing practices to maintain the level of hygiene required to make sure that our products reach customers in the best condition.

We are known in the market for our superior chocolate quality and great packaging, making our products suitable not only for consumption but also for gifting, be it personal gifting or corporate gifting. Our vision is to have customers all over the world consume our chocolate, not only for the first time but multiple times to create a long-lasting association with our brand 'ChocoZay'.

We work across the board with different channel partners, agencies and direct customers via online platforms. We try to connect to our customers through different avenues to ensure that they receive products in a timely manner.

We invite small, medium and large companies to associate with us and give us a chance to serve their business needs.
